

The Friends 4 Expo Transit wish you the best during this holiday season!

We are an independent group of citizens joined together to support a solution: construction of a fast, comfortable, safe, high-capacity public transit line from downtown Los Angeles to Santa Monica, which the Los Angeles County MTA is now studying for the Exposition right-of-way.

Better transit alternatives to the Westside means better access to a growing job market, potential for transit village redevelopment for lower income communities, and a way to ease this busy corridor out of gridlock. Please join us in our effort to connect our neighbors!
